Metro Neo in Mysuru

Feasibility study proposal to be tabled at MUDA meeting tomorrow

The model of the proposed Metro Neo for Nashik. A similar project is proposed for Mysuru.

By S.T. Ravikumar

Mysuru, Aug. 12- Mysuru is likely to become one of the Tier-2 cities in India to have a Metro Neo corridor, a rail-guided mass urban transport system with rubber-tyre electric coaches powered by an overhead traction system running on elevated or at-grade sections.

Mysuru Urban Development Authority (MUDA) will undertake a feasibility study of the project based on the population growth of Mysuru and also the number of vehicles. The feasibility study — to be conducted along with Mysuru City Corporation (MCC) — will keep in mind the population and vehicle growth for the next 50 to 100 years, the existing transport infrastructure and also the need to expand it.

The Metro Neo proposal will be tabled before MUDA meeting scheduled to be held tomorrow (Aug. 13). After the feasibility study, a Detailed Project Report (DPR) would be prepared and sent to the Union Urban Development Ministry for approval, MUDA Chairman H.V. Rajeev told *Star of Mysore* this morning.

Project announcement

In her last Budget speech, Finance Minister Nirmala Sitharaman had stated that Metro Lite and Metro Neo technologies will be deployed to provide metro rail systems in Tier-2 cities and the peripheral areas of Tier-1 cities at much lesser costs with the same experience, convenience and safety of a Metro Rail.

(See METRO on page 6)

Tri-weekly Indigo flight to Chennai from tomorrow

Mysuru, Aug. 12 (RK&BCT)- Indigo Airlines will operate between Mysuru-Chennai from Aug. 13 (tomorrow). This will be in addition to the already existing daily flight to Chennai and will cater to the growing demand for more flight services to Chennai.

Mysuru-Kodagu MP Pratap Simha tweeted this morning that the flight has been introduced by Indigo Airlines and will operate thrice weekly from tomorrow. The ATR flight 6E 7269 will leave Mysuru at 4.35 pm and reach Chennai at 5.55 pm.

Flight 6E 7259 will depart from Chennai at 2.50 pm and arrive in Mysuru at 4.15 pm. The frequency of the flight will be Monday, Wednesday and Friday. The flight will be launched under Ude Desh ka Aam Naagrik (UDAN) Regional Connectivity Scheme (RCS).

Speaking to *SOM,* Mysore Airport Director R. Manjunath said that there is a daily demand of 60 to 70 passengers.

"We had approached TruJet and as they did not respond, we approached Indigo. Apart from regular travellers and businessmen, there is a huge demand for Chennai flights as it will help hundreds of people visiting the U.S. Consulate in Chennai for VISA purposes," he said.

It may be recalled here that Indigo had launched a similar service on March 29 but had to stall the service as the second wave of COVID-19 peaked.

By-poll to MCC Ward 36 on Sept.3

Model code of conduct in Ward limits from Aug. 16; Counting of votes on Sept. 6

Mysuru, Aug. 12 (RK&DM)- The suspense over the conduct of by-poll for Mysuru City Corporation (MCC) Ward No. 36 (Yaraganahalli and Ambedkar Colony) has ended with the State Election Commission on Wednesday (Aug. 11) ordering by-election to the Ward on Sept. 3, along with the announcement of the schedule for the election to Belagavi, Hubballi-Dharwad and Kalaburagi City Corporations in the State.

Ward 36 is reserved for Backward Class Category-B (Woman) and the by-poll to the lone MCC Ward will take place along with the general election to the three other City Corporations.

Following the Election Commission's announcement, the Office of the Deputy Commissioner (DC) of Mysuru declared the details of by-poll schedule this morning. According to the details, the model code of conduct will come into effect in the limits of the Ward from Aug. 16 and will remain till Sept. 6.

(See BY-POLL on page 6)

Will seek advocate's advise on contesting by-poll

Meanwhile, disqualified Mayor Rukmini Madegowda, speaking to *SOM* this morning, said that she came to know of the by-poll announcement last night. Pointing out that the Supreme Court is yet to dispose off her petition challenging the Karnataka High Court verdict annulling her election from MCC Ward 36, she said that she would consult her advocate and JD(S) party workers before taking any decision on contesting the Sept. 3 by-poll. Rukmini further said that she will take an appropriate decision on contesting again as there is more than 10 days time for filing of nomination (last date Aug. 23).

Entries invited for Cycle Pure Online Pookalam Contest

Mysuru, Aug. 12- Cycle Pure Agarbathi, India's most preferred home worship brand, is organising an online Pookalam competition on the occasion of Onam-2021.

Aiming to bring the celebrations to people's doorsteps, the brand urges everyone to celebrate the festival within the safety of their homes.

The competition is open to everyone celebrating Onam. It starts today (Aug. 12) and the last date to send entries is Aug. 23.

Participants should place any of Cycle's products in their Pookalam design, upload the picture with the hashtags #OnamWithCycle #PookalamContest #CYCLEdotIN #Prayers #PrayForIndia #PrayForKerala and tag Cycle's official page on Facebook (@CYCLEdotIN) and Instagram (cycle.in_official).

Participants also have to enter their details with the Pookalam picture on *https://l.cycle.in/onam2021*. The brand will announce five winners on Aug. 25.

Speaking about the competition and the festival, Arjun Ranga, Managing Director, Cycle Pure Agarbathi, says, "We wanted to make this year's festival a memorable one for our customers. We invite everyone to display their creativity and our rich culture through this online Pookalam competition and share it with our worldwide consumers through our platform. We urge everyone to pray from home and celebrate a safe Onam."

Cycle Pure Agarbathi offers the Om Shanti Pure Puja Oil for the traditional lamp festivities of Onam and for an enriched puja experience. The Om Shanthi Pure Puja Oil is a blend of five puja oils — Coconut, Rice Bran, Sesame (Til), Castor and Mahua — sourced in their purest form. It is available in all retail outlets and departmental stores as well as on *cycle.in*.

EDITOR'S BOTTOMLINE

The Kumbaya moment arrived in India's political landscape this week. Kum-bah-yah is the phonological representation of the prayerful refrain 'Come by Here' sung by African Americans in the 1920s. It is also defined as a pejorative, slang for naïve idealism about rosy-eyed hope of unity by modern-day political lexicographers. The good news is that a semblance of competition is visible on India's political landscape. West Bengal Chief Minister Mamata Banerjee, was in Delhi after a historic victory, gave the clarion call of Khela Hobe 2024. The meetings with Sonia Gandhi, Sharad Pawar and Arvind Kejriwal et al are for now at best Kodak moments. As yet, the 'Unite to defeat Modi' quest is an idea without a plan. Public discourse is riveted around who will be the face of the coalition. First off, the Congress will need to figure out who is its face before they weigh in on who will lead the coalition. The 'who' question is important but it is more important for parties to articulate what they stand for, not just who they are against. In the 2014 polls, Modi presented the Gujarat Model and himself as the alternative. Critically, what is the alternative model of governance if any that the aspiring coalition has to offer?

— Shankkar Aiyar in The New Indian Express

NEWS SPARKLERS

The lake with clearest fresh water

Nelson Lakes National Park: Rotomairewhenua, also known as the Blue Lake of New Zealand's Nelson Lakes National Park, is officially recognized as the clearest body of fresh water in the world.

Blue Lake is spring fed by the neighboring glacial Lake Constance, and the water passes through a natural debris dam formed a long time ago by a landslide. This debris acts as a natural filter that retains most of the particles suspended in the glacial water, making Blue Lake almost as clear as distilled water. New Zealand's National Institute of Water and Atmospheric Research (NIWA) carried out scientific tests of the water and determined it to be the clearest natural body of fresh water known to man.

Research has shown that visibility in Blue Lake is between 70 – 80 meters (260 feet), which makes it almost as optically clear as distilled water. Luckily, it is considered sacred by the local Māori tribe, and no one is allowed to enter, let alone bathe in its waters, with one notable exception.

Man marries his ex-girlfriend and fiancee

Central Lombok: A young man ended up marrying both his fiancée and his ex-girlfriend at the same time, after the latter crashed his wedding ceremony.

Late last month, 20-year-old Korik Akbar, from the regency of Central Lombok in the Indonesian State of West Nusa Tenggara, was in the process of marrying his betrothed, when his ex-girlfriend burst in asking that she marry him as well, as his second wife, claiming that she couldn't get over their relationship. Instead of making a scene, Akbar's fiancée, Kotimah, actually agreed to the proposal and told the young man that she accepted his former fling as his second wife. So he ended up marrying the both of them in the same ceremony.

VOICE OF THE READER

Rules are not same for all !

Sir,

The news item ***"Rule enforcer turns rule breaker!"*** appearing in *Star of Mysore* dated Aug.5 shows the dismissive approach and attitude of Government officials misusing their power.

The blatant violation of an officer, who is supposed to strictly enforce COVID norms, need to be probed and punished.

Issuing a show cause notice to the hotel where the function was held is only an eye-wash to protect the erring officer.

There are definitely officers superior to a Tahsildar in a district who can issue the notice to the erring Tahsildar (Mandya) and a Tahsildar (Srirangapatna) need not issue a notice to another Tahsildar as stated by the Mandya Deputy Commissioner.

Entries invited for Rotary Datta Teachers Award-2021

Mysuru, Aug. 12- Rotary Mysore has been celebrating Teachers Day by awarding eminent teachers of the city to commemorate Dr. Sarvepalli Radhakrishnan's birth anniversary (Sept.5) from past 23 years.

Rtn. K. Dinesh Babu and Ann. Lakshmi Dinesh of Datta Jewellers instituted 'Rotary Datta Teachers Award' in 1997 to honour the teachers. Entries have been invited for 'Rotary Datta Teachers Award-2021' and teachers have to be nominated by the Head of the respective institution. The nomination should include the bio-data, details of their achievements along with two recent passport size photos. Nominations should reach Rotary Centre, #1/A, JLB Road, Mysuru - 570004 before Aug. 25.

For details, contact Ph: 0821-4247823 or e-mail: *rotarymysore1944@gmail.com*.

MP questions wrong key answers of K-SET conducted by UoM

Mysuru, Aug.12- Alleging lapses in the key answers of K-SET-2021 (Karnataka State Eligibility Test for Assistant Professorship in Colleges) conducted by University of Mysore (UoM), which is the nodal agency for the conduct of the test, Mysuru-Kodagu MP Pratap Simha has demanded a re-exam.

In a letter to UoM Vice-Chancellor in this regard, he maintained that several of the key answers of K-SET exam, given by UoM were wrong. As an example, 17 key answers of History subject were wrong, he said.

Pointing out that students have to pay a whopping Rs.1,000 to raise objection per key answer and the University will consider the answers as correct if no objections are filed, Simha alleged that the Varsity was playing with the life of candidates.

The MP further argued that this high fee was stipulated by the University in order to prevent students from filing objections.

Contending that UoM did not appoint a team of experts to set the question paper for K-SET, Simha said that there are also complaints that the CCTV cameras installed at the evaluation centre and answer script storerooms have been removed.

Urging the Varsity to immediately re-install the cameras, Simha sought clarification from the University authorities over alleged wrong key answers.

Reiterating his demand for a re-exam, the MP also sought a thorough investigation by a Government constituted committee into the alleged lapses in K-SET exam and also into the appointment of over 400 Group-D employees by the UoM in the last two years.

Police open One Stop Service Centre to help women

Mysuru Aug. 12 (BCT)- In yet another step towards stopping harassment of women and providing better disposal of their complaints, the City Police have opened a one-stop service centre.

With this, the Mysuru City Police have achieved one more milestone that will go a long way in mitigating crimes against women, the first one being opening of a dedicated Women's Police Station at Lashkar Police Station years back that is now acting as a ray of hope to affected and harassed women.

The one-stop service centre too has been opened at the Lashkar Police Station and City Police Commissioner Dr. Chandragupta inaugurated it yesterday.

The centre with five rooms has all the basic amenities like counselling room, first aid, legal advice section and temporary shelter for the women who come to the Police Station seeking justice and also to speedily address

their grievances.

A press release from the office of the Commissioner stated that the centre was opened following a Government order issued in October 2018 for the benefit of women. The Government order says that in case of any crime women can go to the nearest Police Station to lodge a complaint. She will be later referred to the Women's Police Station that has been set up exclusively for the purpose.

In case of matrimonial disputes, such plaints have to be sent to counselling and in case a woman is subjected to physical assault, she has to be taken to a hospital for medical check-up. If a woman is rejected by her own family, she and her children have to be accommodated at the centre and the Police must counsel her to face life and give her legal options.

The one-stop service centre functions with the above framework and to achieve the goals of the Government order, five rooms at the Women's Police Station have been renovated and equipped with computers and furniture including beds for the women in distress to rest and regain composure.

Legal advice about rights

Speaking to *Star of Mysore*, a senior Police Officer said that a large number of couples separate each year while many women end their lives due to harassment or are killed for dowry, etc. To bring down such incidents, the Police will now not only counsel but also provide free legal advice to women, besides giving them information about their rights, he said.

After primary assistance to women in distress by the personnel at the one-stop service centre, disputes will be handled appropriately by trained women Cops. At the centre, women will be counselled, given medical attention, if needed, and information about laws would be disseminated. The service centre, where women affected by domestic and sexual violence could stay for a brief period, would render counselling to these victims. Women would be allowed to stay in at the one-stop centre and their cases would be taken up by Women Police Station based on the complaints from the victims, the officer added.

DCP (Crime and Traffic) M.S. Geetha Prasanna, ACP (Devaraja Sub-Division) M.N. Shashidhar and Women's Police Station Inspector V.D. Mamatha and others were present.

'Govt. to strictly implement Anti-Cow Slaughter Act'

Animal Husbandry Minister Prabhu Chavan calls on Suttur Seer, seeks blessings

Mysuru, Aug. 12 (RKB&DM)- Asserting that the State Government was totally committed to implement the Karnataka Prevention of Slaughter and Preservation of Cattle Ordinance, 2020, Animal Husbandry Minister Prabhu Chavan said that the State Government has decided to construct Goshala in all districts and the works on it will commence soon.

He was speaking to press persons after visiting Suttur Mutt and seeking the blessings of Sri Shivarathri Deshikendra Swamiji here yesterday.

Contending that the Ordinance has not remained only on paper, Prabhu Chavan said that the State Government will take strict measures to implement the ordinance.

Maintaining that it is the responsibility of the Government to save cows, which are considered as 'Gomaata' by many, from being taken to slaughter houses, he said that the Government will deal seriously against illegal sale of beef. Pointing out that he has spoken to the Home Minister on complaints regarding illegal sale of beef despite the ban on cow slaughter, Chavan claimed that he voluntarily sought Animal Husbandry portfolio in order to prevent cow slaughter and save 'Gomaata.'

Continuing, Chavan said that several districts have been given ambulance under 'Pashu Sanjeevini Scheme' and 25 more ambulances will come soon, which will be distributed among all districts which have not got one.

"I will take measures to ensure that the Government releases more grants for Goshaalas," the Minister announced.

He further said that strict checks at check-posts prevented about 6,000 cattle being illegally slaughtered during the recent Bakrid festival and added that 85 percent of the 10,000 complaints received through Animal Welfare Helpline has been addressed in a span of just one month.

Replying to a query on disappointment being expressed openly by some of the Ministers over their portfolio allocation, Prabhu Chavan said that the BJP top brass will address the issue and sort out any differences.

Obituary

J. Josephine

Mysuru, Aug. 12- J. Josephine (61), wife of Christopher and a resident of N.R. Mohalla, passed away this morning in city.

A former employee of St. Joseph's Central School at Vijayanagar here, she leaves behind her husband, daughter Maria Nebita and a host of relatives and friends. Funeral Mass will be held at the Catholic Cemetery on Mahadevapura Road in Gandhinagar tomorrow (Aug. 13).

Nanjappa

Nanjappa (Society Nanjappa), a resident of Karigowda Street in the town, passed away yesterday morning at the town.

He leaves behind his wife, two sons including TAP-CMS President Venkatesh (Papu) and a host of relatives and friends.

Last rites were performed at the family's farm land at Azad Nagar yesterday evening, according to family sources.

Water pipe breaks open near Chamarajapuram under-bridge

Swift action by MCC, MUDA and VVWW teams

Mysuru, Aug. 12 (RKB& BCT)- A water pipeline burst open near the Chamarajapuram Railway Under-bridge yesterday and drinking water jumped up like a spring, attracting a group of onlookers who were taking photos and shooting videos.

The flow right in the middle of the busy road started slowly and onlookers thought that it was a minor pipeline break. Soon, a huge quantity of water poured out and many people clicked selfies seeing clear white water springing on the road. As vehicles stopped by there were traffic bottlenecks.

Responding immediately after getting information about the pipe break, teams from Mysuru City Corporation (MCC), Mysuru Urban Development Authority (MUDA) and Vani Vilas Water Works (VVWW) arrived at the spot and first disconnected the water line, dug pits and repaired the broken pipeline.

MUDA Executive Engineer Suvarna, Assistant Executive Engineer Ashwin and Water Inspector Rajesh led the repair operation. Their swift action earned praise from the public.

Census-2021 goes digital

New Delhi, Aug. 12 (UNI & Agencies)- The 2021 Census will be the first digital census in the country and there is a provision for self-enumeration. "The forthcoming census is to be the first digital census and there is a provision for self-enumeration," Minister of State for Home Affairs Nityanand Rai informed the Parliament on Tuesday.

A mobile App for collection of data and a census portal for management and monitoring of various census-related activities have been developed, the Minister said in Lok Sabha. He said due to the COVID-19 pandemic, the 2021 census and other related field activities have been postponed until further orders.

The Minister informed the House that the questionnaire for the first phase of census was notified in the gazette of India. He said the individual data collected in census under the Census Act are not made public.

Rai said special emphasis is given on scientifically designing the census questions for faster processing and early release of data. A decadal exercise to enumerate the country's population, census in India is one of the largest administrative and statistical exercises in the world.

The exercise requires visiting every household across the country for enumeration and involves the services of three million employees. First conducted in 1872, the census is the largest repository of the nation's people, covering everything from demographics like age, gender and marital status, to housing and economic activity.

Data is collected on demographic and various socio-economic parameters like education, SC/ST, religion, language, marriage, fertility, disability, occupation and migration of the individuals. As a source of primary data at the household, village and town levels, it plays a huge part in the planning and formulation of Government policies, social and economic research and business strategies.

HOW WILL THIS WORK?

Austria, Germany, Switzerland, Singapore, Netherlands, Norway, Finland, Sweden, Denmark, Greenland, Bahrain, Estonia, USA, UK, Vietnam and Swaziland are some nations that have undertaken a digital census. The mammoth nationwide exercise will be carried out in 16 languages and at a cost of Rs. 12,000 crore.

An individual can fill in the details using relevant codes for each field in case of self-enumeration. An identification number will be sent on the registered number of the individual after self-enumeration. The data will then be synced once the number is shared with the enumerator.

School teachers will double up as enumerators to collect the data. Earlier, enumerators used to visit every household and fill a form. As per estimates, India will be using 30 lakh enumerators for the census.

Indian Arms Act exemption

Four Kodava organisations implead themselves in PIL

Bengaluru, Aug. 12 (BCT)- Federation of Kodava Samajas, Balugodu, Kodava Samaja Bengaluru (KSB), Codava National Council (CNC) and United Kodava Organisation (UKO) filed an Interlocutory Application (IA) urging the Karnataka High Court to consider them as respondents in the Public Interest Litigation (PIL) filed with regard to gun licence exemption to Kodavas.

The PIL has been filed by Captain (Rtd.) Yaladalu K. Chethan, who has questioned the 2019 notification of granting exemption to Kodavas in Kodagu district from the requirement to obtain a licence to carry and possess firearms as required under provisions of the Indian Arms Act, 1959.

The PIL came before the High Court yesterday and was heard by the Division Bench of Justice Satish Chandra Sharma and Justice Sachin Shankar Magadum, who have directed the inclusion of Federation of Kodava Samajas, KSB, CNC and UKO as respondents in the PIL.

While Additional Solicitor General Naragund appeared for the Central Government, senior advocate and former Additional Advocate General of Karnataka A.S. Ponnanna appeared for CNC and the Federation. Senior advocate Sajan Poovayya appeared for KSB and UKO was represented by Praveen Reddy.

The Division Bench asked the respondents and the Centre to file their objections and views in writing within two weeks and posted the PIL hearing to Aug. 31.

Petitioner Chethan, son of Yaladalu D. Keshavananda of Galibeedu village in Kodagu, has questioned the Constitutional validity of the notification issued by the Ministry of Home Affairs extending the exemption for "every person of Coorg race and every Jamma tenure land holder in Coorg" from gun licence till October 31, 2029.

"The classification and use of term 'Coorg race' promotes discrimination between the citizens of Coorg region on the ground of caste, violating Article 15 of the Constitution. The classification of 'Coorg race' itself is derogatory and possesses a threat to the life and liberty as the people exempted are permitted to hold arms and ammunition without any scrutiny of their antecedents or criminal records," the PIL said.

Seminar, awards presentation mark former CM Siddharamaiah's birthday

The awardees (sitting from left) ***Dr. Baburao Nadoni, C. Venkatesh, Reena Patrick, Veena Prabhu and S. Rajaram seen with Mysore University VC Prof. G. Hemantha Kumar, dignitaries and organisers.***

Mysuru, Aug. 12 (RKB&KS)- On the occasion of former CM Siddharamaiah's birthday, Karnataka Rajya Hindulida Vargagala Jagrutha Vedike had organised a seminar titled 'Janakalyanada Nayaka Sri Siddharamaiah - Ondu Chinthane' and 'Bhagyavidhata Sri Siddharamaiah State Award' presentation programme at Vijnana Bhavan, Manasagangothri campus in city this morning.

Speaking after inaugurating the programme, litterateur Banjagere Jayaprakash appreciated the organisers for instituting an award in the name of Siddharamaiah, who has strived for the upliftment of the poor by introducing many schemes during his tenure as CM.

Pointing out that many had criticised Siddharamaiah when he introduced 'Anna Bhagya' scheme, saying that the former CM was making the labour class lazy, Jayaprakash said that those who had criticised him then have come to know the value of food now. He added that Siddharamaiah had introduced 'Anna Bhagya' as his vision was to see that none go to sleep hungry or with empty stomach.

Bhagyavidhata Sri Siddharamaiah State Award was presented to international artist from Belagavi Dr. Baburao Nadoni, State President of Bharathiya Dalita Sahitya Academy, Karnataka Unit, New Delhi, Dr. C. Venkatesh, Shivamogga Akhila Bharata Christha Mahasabha's State Woman Vice-President Reena Patrick, Head of Sujeev organisation, Bengaluru, S. Rajaram and woman tribal activist of Nagapura Tribal Hamlet in Hunsur Veena Prabhu.

The awards were presented by University of Mysore Vice-Chancellor Prof. G. Hemantha Kumar. Chairman of Dasti Educational Institutions Dr. D. Thimmaiah presided.

Litterateur and Folk scholar Prof. H.C. Ramachandregowda, Prof. K.S. Bhagwan, former ZP President K. Marigowda, social worker Dr. K. Raghuram Vajpayee, Karnataka Pradesh Kurubara Sangha State President B. Subramanya, former Corporator M. Pradeep Kumar, Director of The City Co-operative Bank M. Puttaswamy, Vedike State President K.S. Shivaram and others were present.

60 MLD Kabini water project to be upgraded to 180 MLD

Mysuru, Aug. 12 (RK&BCT)- In a bid to augment drinking water supplies to the city, the Mysuru Urban Development Authority (MUDA) has come up with an upgraded plan to supply uninterrupted water to South Western parts of Mysuru city by drawing more water from Kabini river.

MUDA has proposed to make optimal use of the Bidaragodu Jackwell point to supply 180 MLD (Million Litres per Day) of water from the present 60 MLD. Once implemented, this will be one of the most ambitious drinking water projects to be taken up by MUDA in recent times.

As per the new proposal that will be tabled before the MUDA meeting tomorrow, from Bidaragodu Jackwell, water will be pumped to Kembalu Pumping Station where water will be chlorinated and pumped to Udbur from where it will be supplied to Mysuru city.

Speaking to *Star of Mysore* this morning, MUDA Chairman H.V. Rajeev said that the entire upgradation project will cost Rs. 150 crore. The present 60 MLD is not optimal and the project can supply 180 MLD water to both MUDA-formed layouts and MUDA-approved private layouts.

The project can supply water to all the parched areas of South-West Mysuru and it will help the people of R.T. Nagar, J.P. Nagar and hundreds of residents of private and MUDA layouts all along the Ring Road, he said.

"For the 60 MLD project at present, we have one 450 HP motor and for the upgradation, we need 1,250 HP pumping capacity and two more motors and one for standby would be purchased. Also, the 11 KV power station at Udbur Gate water supply plant will be enhanced to 66 KV so that more quantity of water can be drawn from Kabini river that flows close to Bidaragodu," he explained.

The project will be implemented within one year and Rs. 150 crore is required for upgradation. "Mysuru-Kodagu MP Pratap Simha has assured that he would get Rs. 50 crore under Centre's Jal Jeevan Mission and during their recent visit to Mysuru, Ministers S.T. Somashekar and Byrathi Basavaraju have assured all help to upgrade the project to supply 180 MLD water," he added.

The Bidaragodu Jackwell point supplies water to Kuvempunagar, J.P. Nagar, Bankers Layout, Jayanagar and surrounding areas. If MUDA makes full utilisation of the remaining 120 MLD capacity, water can be supplied to MUDA and private layouts at R.T. Nagar, Vijayanagar Fourth Stage, J.P. Nagar, University Layout and surrounding areas, benefiting over one lakh houses.

By-poll to MCC Ward 36 on Sept.3

(Continued from page 1)

DC Dr. Bagadi Gautham, who is also the District Electoral Officer, said that the notification for the by-poll will be issued on Aug.16.

The last date for filing of nomination papers is Aug.23, following which the scrutiny of papers will be taken up on Aug. 24.

Last date for withdrawal of nomination papers is Aug.26 and voting, if necessary, will take place on Sept.3 from 7 am to 5 pm. The re-polling, if necessary, will be held on Sept.5. Counting of votes will be taken up on Sept.6 and the results will be announced the same day.

Officers appointed

The following Officers have been appointed to oversee the conduct of by-election: Nanjundaiah **(Mob: 94480-08342),** Zonal Commissioner, MCC Zone-7, will be the Returning Officer and M. Prasad **(Mob: 99802-83881),** Assistant Revenue Officer, MCC Zone-4, will be the Assistant Returning Officer. These two Polling Officers will function from the Office of MCC Zone-9 at Gayathripuram till the poll process is complete.

11 polling booths

MCC Ward 36 (Yaraganahalli and Ambedkar Colony) will have 11 polling booths and the Ward has 10,883 voters (5,391 men, 5,489 women and 3 others).

The District Administration has set up Control Rooms and the members of the public can call the below mentioned numbers for any model code of conduct violations, electoral irregularities or malpractices etc.

DC Control Room:

1077

MCC Control Room

0821- 2440890 / 2418800

Details: The by-poll has been necessitated following the annulment of the election of the then Mysuru Mayor Rukmini Madegowda of the JD(S) by the Karnataka High Court in May last.

Rukmini was elected as Mayor on Feb.24, 2021. But barely three months into her office, she lost her post, as the High Court upheld a District Court order disqualifying her on the grounds that she had filed a wrong submission of her assets in the polls held in 2018.

Rajini Annaiah of the Congress, who lost the 2018 polls to Rukmini Madegowda of the JD(S) by over 300 votes in Ward 36, had challenged the election of Rukmini in the District Court, accusing her of submitting false records. The District Court, which heard the petition, upheld Rajini's arguments and annulled the election of Rukmini, while also ordering that the defeated candidate, Rajini Annaiah, the petitioner, be declared elected from the Ward.

Subsequent to the District Court's ruling, Rukmini moved the High Court seeking a review of the order. The Karnataka HC, which heard Rukmini's petition in May this year, upheld the District Court's order annulling the election of Rukmini. However, the HC quashed the District Court's order that had directed for declaration of election of Rajini Annaiah of the Congress from the Ward.

Following the HC ruling, Rukmini filed a review petition in the Supreme Court questioning the HC order. But the SC is yet to give its judgement in the case.

Metro Neo in Mysuru

(Continued from page 1)

India's first Metro Neo will be adopted in Maharashtra's Nashik. Metros in Kochi, Chennai, Bengaluru, Nagpur and Nashik will get funding from the Central Government, she had stated. Metro Neo will be ideal for Mysuru as Metro Lite would be expensive, Rajeev noted.

"Metro Neo light transit system costs about 20 to 25 percent of a Metro Rail and has lower maintenance costs. The standard specifications for Metro Neo have been issued by the Urban Development Ministry and we will have to study technical specifications as well as other allied requirements for this corridor. At this juncture, it is not possible to widen roads that have been built by the Maharajas. The Irwin Road development bottleneck is the best example," Rajeev reasoned.

Metro Neo Project

According to the DPR prepared for Nashik, Metro Neo is a Mass Rapid Transit System that aims to provide a comfortable, rapid, energy-efficient and less noisy transport medium. It would have three-coach sets, with each being 12 metres long and 2.5 metres wide and a floor height of 300-350 mm. Made of stainless steel or aluminium, the coaches would be smaller and lighter.

The rubber-tyre Metro Neo coaches would run on road slabs, which could be elevated or at-grade. When running at-grade, Metro Neo would have a dedicated lane separating it from road traffic with the help of a plinth, fencing or kerbs. There would be an Automatic Train Protection system with anti-collision feature and predefined speed limit.

The coaches will operate on batteries on the feeder routes and will also run on the main corridors and get charged during running by overhead traction. Metro Neo platforms would be simple, open and serve the functional requirement of exchange of passengers between the platform and the vehicle. Only bare minimum facilities like lighting, CCTV and public information system would be provided.

CM likely to offer 'bagina' to KRS Dam on Aug. 18

Srirangapatna, Aug. 12 (VK& MR)- With the water level in KRS Dam nearing the 121 ft. mark today, the dam is expected to be full to the brim in a couple of days. The maximum water-level of the dam is 124.80 ft. and a 3ft rise in water level is enough for the Dam to be full.

With KRS, the lifeline of lakhs of people in old Mysuru region, expected to be full in a couple of days due to good rainfall in catchment areas, Chief Minister Basavaraj Bommai is likely to offer 'bagina' to the Dam on Aug. 18.

Today (Aug. 12), the water-level at KRS Dam stood at 120.98 ft. with 5,991 cusecs inflow and 5,503 cusecs outflow.

With the CM likely to offer 'bagina' on Aug. 18, Mandya SP Dr. Ashwini visited the Dam in Srirangapatna taluk yesterday and reviewed security.

Speaking to *Mysuru Mithra*, the sister concern of *Star of Mysore*, Dr. Ashwini said that the Dam is just over 3 ft. away from becoming full to the brim.

Pointing out that it is a customary practice for the Chief Ministers of the State to offer 'bagina' to dams after they become full, she said that though the exact date of Chief Minister Basavaraj Bommai's visit has not been fixed so far, it is likely that the CM may visit anytime next week and the Police have started making elaborate security arrangements in the vicinity of the Dam as a precautionary measure.

Stating that the Police are setting out security measures and getting prepared for the CM's visit, which can be either by road or by an helicopter, Dr. Ashwini said that the Department is also working out plans to ensure adherence to COVID-19 Appropriate Behaviour during the CM's visit.

Meanwhile, it is learnt that, with the KRS Dam almost full, a delegation of JD(S) Legislators and leaders met Chief Minister Basavaraj Bommai at Bengaluru on Tuesday and extended him an invitation to offer 'bagina' to the Dam, which is fast nearing full capacity.

'Raita Bandhu' campaign to be launched from Aug. 15

Mysuru, Aug. 12- The Taluk Administration will launch a two-month 'Raita Bandhu' campaign under MGNREGA scheme, aimed at promoting the use of vermicompost among the farming community.

In a press release, Mysuru Taluk Panchayat (TP) Executive Officer (EO) M.S. Ramesh said that vermicompost, popularly known as Black Gold among farmers, is a sustainable manure which increases soil fertility.

Pointing out that it has been planned to start 25 vermicompost manufacturing units in all Gram Panchayats (GPs) of the taluk, he said that the farmers can build a vermicompost tank during the two-month campaign.

Noting that the cost of constructing a vermicompost tank of area 5.5 x 2.7 x 1.0 mts is estimated at Rs. 27,000 and that of tank of size 3.6 x 2.7 x 1.0 mts is Rs. 21,000, he said that eligible beneficiaries can utilise this opportunity for the construction of the vermicompost tank.

Stating that interested farmers can walk-in to their respective GP and submit the application, Ramesh said that farmers can also file their application through 'Kayaka Mitra' mobile app.

Footpath encroachment clearance drive in city

11 cases registered, Rs. 4,000 fine collected in two days

Mysuru, Aug. 12 (KS)- The Mysuru City Traffic Police, who have been conducting operations to clear encroachments on footpaths across the city, conducted the encroachment clearance drives on Aug. 10 and 11 and have registered a total of 11 cases besides issuing 11 notices and collecting a total fine of Rs. 2,000.

The drives were conducted by Devaraja, Narasimharaja, Siddarthanagar, Krishnaraja and V.V. Puram Traffic Police on Dhanvantri Road, Nelson Mandela Road, Mahadevapura Road, Ramavilas Road and Surya Bakery Road.

DCP (Crime and Traffic) M.S. Geetha Prasanna and ACP (Traffic) S.E. Gangadharswamy guided Inspectors and staff of all Traffic Police Stations in the encroachment clearance drives.

Woman missing

Seema Banu

Mysuru, Aug. 12 (KS)- A 28-year-old woman, who left her house on July 29 at about 11 am, has since gone missing. The missing woman is Seema Banu, wife of Riyaz Pasha.

She is 5 ft. tall, oval faced, wheatish complexioned, normal built, has a mole on her nose, speaks Urdu and Kannada and was wearing a white pant and red coloured top at the time of going missing. Those having any information about the missing woman may contact Vidyaranyapuram Police on Ph: 0821-2418122/ 322/ 522 or Police Control Room on Ph: 0821-2418339, according to a press release.

Railway timetable is published in Star of Mysore every Thursday.*

DECODING MYTHOLOGY

Dr. Devdutt Pattanaik - Author, Speaker, Illustrator, Mythologist

Origins of Nepotism

These days, business families are including their daughters in the family businesses. Yet on careful observation, one notices that the son is given responsibility for "outside" jobs such as production and sales, the jobs that take you to the factory and the market. The daughter is usually put in charge of "inside" jobs such as marketing, finance and human resources, jobs that keep you in the office, on the desk. There is gender discrimination within diversity and inclusion even inside families.

Be that as it may, what prompts an entrepreneur to pass on his enterprise to his children? Why does he not pass it to meritocratic professionals? Is this the ancient Hindu concept of *Putra-moha,* an obsession with one's own children that leads to the downfall of the kingdom? This idea is explored in the *Mahabharata.* Here, the blind king Dhritarashtra is obsessed with his 100 sons, the Kauravas. This leads to the great war that destroys the Kuru clan. In the *Ramayana,* Dasaratha died heartbroken, because his son was exiled, following family politics. When we read the *Ramayana* and *Mahabharata,* we never ask the question why is the crown of the kingdom being passed on to sons and not to some worthy youth? Was this always the case?

The *Puranas* have constant references to kings being childless. Is this a metaphor for kings who are not satisfied with their children? Could this be why they adopt children who are worthier? We have a Hiranyakashipu torturing his son Prahalad because Prahalad disobeys him and worships Vishnu. Disobedient sons are often rejected by proud kings. Such kings would naturally consider themselves childless. In seeking more compliant children, they adopt perhaps worthier or maybe more obedient children. Then, there are also stories of kingdoms where the royal elephant is asked to go around the kingdom. He randomly picks up a youth from the streets to become the king. This suggests that kingship has nothing to do with meritocracy and that anybody can be a king.

Hindu scriptures refer a lot to the idea of inheritance. This helps us understand nepotism in the context of Indian culture and *dharma. Dharma* emerges as culture is established. Culture is essentially created to save human beings from the demands of nature. In nature, might is right, in nature no one comes to your help. Yet, in culture, the meek can be protected. You can help those who are weaker than you; but who deserves help? Of all the weak people in the world, we naturally help our family members, our children, our friends. Essentially, we help those who are extensions of our own selves.

So I expand to mine, while you expand to yours. It takes a lot of spiritual courage to create resources for strangers who we have no connections with. Perhaps this is the root of nepotism. We want to stay immortal. But we know we are not immortal. We transfer ourselves through what we bequeath. We pass on what we have to our children, male or female, worthy or not. Through them we live on. Through them we become immortal. Our soul rests in our property and lives on beyond us, through our children, our sons and our daughters. Our property, our family name, our family vocation becomes the medium to establish immortality. Hence, we will share these with no one else except those who we refer to as "mine".

Generosity or *daan* is about taking care of those beyond the sphere of relationships, about those we are unrelated to. To feed those who we don't know is not easy. Tribal communities take care of the tribe. To feed the stranger is a virtue that needs to be cultivated. That cultivation of looking beyond ourselves and our people, is *dharma.* It is a struggle which explains why companies find it tough to give even a portion of its profits to charity.

Intl. Award for Baby Oral Health Promotion Clinic at JSS

Mysuru, Aug. 12- Dr. Indira and Dr. B. Nandlal, Paediatric Dentists from JSS Dental College and Hospital (JSSDCH), received prestigious Bright Smiles Bright Future Award from International Association of Paediatric Dentist (IAPD) in the recently held 28th IAPD Virtual Congress.

This award is in recognition of an innovative Baby Oral Health Primary Preventive Education Programme to mothers of children below one year of age at the 'Baby Oral Health Promotion Clinic,' functioning at Department of Paediatrics, unique extension Clinic from the Department of Paediatric and Preventive Dentistry, JSSDCH.

The Clinic was inaugurated by Stefanie L. Russel from New York University. International College of Dentist (India Section) has also recognised the Clinic as one of the best modality to promote oral health in children. This oral health delivery system is as per the recent goals of global oral health recommendations to implement such programmes at sites where the infants visit for vaccination or a well-baby clinic to promote baby's visit to a dentist by one year age, impart early oral hygiene/ brushing and advice on teeth-friendly safe feeding practices.

The Clinic is functional since 6 years and had been instrumental in providing anticipatory guidance to the mothers to prevent early childhood dental decay in children less than three years. More than 7,000 children have been benefited from this preventive JSS programme since its inception.

Visually challenged woman film-maker felicitated

Mysuru, Aug. 12- Rotary Mysore Midtown, in its weekly meeting held at RCL Hall on JLB Road in city on Aug. 4, felicitated T.V. Aishwarya, with 'Woman Achiever Award.'

She is a blind film-maker, painter and a rehabilitation counsellor at the Institute for Vision Rehabilitation, LV Prasad Eye Institute, Hyderabad. Aishwarya is a visually challenged lady, being a victim to brain fever while she was still pursuing her 3rd year Mass Communication degree. However, her courage and never say die attitude made her to fight back her disability and achieve the impossible. She has made her dream, Film Making Profession, a reality through sheer determination. She has been able to script, direct and produce short documentaries and films.

She shared her gutsy story with Rotarians, Inner Wheel members and family members.

Rotary President Rtn. Dr. Ravindranath, Hon. Secretary Rtn. D. Srinivasan, IW Midtown President Asha Mahesh, Hon. Secretary Vimala Nagaraj, Zonal Secretary Rtn. Venkatesh, Vocational Service Director Rtn. Narendra Babu and others were present during the felicitation.

Installation Ceremony of Inner Wheel Club of Mysore South East

The Installation Ceremony of new office-bearers of Inner Wheel Club of Mysore South East for the year 2021-22 was held in city recently with PDC Vinitha Sathish as the Installing Officer. Seen in the picture are *(from left - front row)* ***Poornima Dwarkanath (Past President), Shamanthaka Murthy (Past President), Bhargavi Kumar (Past President), PDC Vinitha Sathish (Installing Officer), Veena Ravindra (President), Seema Mariswamy (Club Secretary), Leela Prabhuram (Vice-President), Shubha Muralidhar (Immediate Past President), Lalitha Ranganath (ISO), Nirmala (Member), Geetha Vishwanath (Member);*** *Back row:* ***Sarala Keshava Murthy (Member), Y.N. Shubha (Web Organiser), Padma Sridhar (Dist. Coordinator), Srilakshmi Vasudevan (Editor), Shylaja Prabhakar (Treasurer), Revathi Prasad (EC Member) and S.A. Veena (Member).***

Narayana Hospital performs 10-hour complex surgery

Saves life of patient suffering from advanced ovarian cancer

Seen are *(from left)* ***recovered patient, Surgical Gastroenterologist Dr. H.M. Lokesh, Consultant Surgical Oncologist & Robotic Surgeon Dr. K.R. Suhas, Clinical Director and Senior Heart Surgeon Dr. M.N. Ravi and Marketing Head K.V. Kamath, during a press meet at Pathrakartara Bhavan in city recently.***

Mysuru, Aug. 12- The Oncology Department of Narayana Multispeciality Hospital, Mysuru, added another feather to its medical achievements by successful curing an advanced ovarian cancer in a 40-year-old patient. The patient was saved by performing Cytoreductive surgery + Hyperthermic Intraperitoneal Chemotherapy (CRS+HIPEC), the latest treatment modality to treat advanced and complex cancer conditions.

Shoba Rani (name changed) was presented to the Narayana Multispeciality Hospital, Mysuru, with abdominal pain since three weeks. On detailed evaluation, it was diagnosed that the patient has a large ovarian tumour with multiple cancer deposits in the abdomen. As the cancer was at an advanced stage and was spread across the abdomen, doctors realised that any routine modalities like surgical removal of the cancerous area or chemotherapy will have limited success.

Hence, they suggested CRS+HIPEC, an advanced and complex surgery. In this treatment modality, firstly the cancer affected areas across the peritoneum (the lining layer of abdomen), uterus, both ovaries and part of large intestine are removed.

The complex surgery also involves careful separation of cancer tissue from normal tissue. After the surgery, the HIPEC machine is connected into the abdomen and chemotherapy drug is given. The treatment was a 10-hour-long one. The treatment was successful.

"Some cancers like those located in the abdominal cavity are challenging to treat. At Narayana Multispeciality Hospital, Mysuru, we not only have an expert team of doctors who can handle complex surgeries such as Cytoreduction surgery with HIPEC, we are even equipped with the latest diagnosing technologies making it easy for residents in an around the region," said Dr. M.N. Ravi, Clinical Director and Senior Heart Surgeon, Narayana Multispeciality Hospital, Mysuru.

Elaborating about the procedure, Dr. K.R. Suhas, Consultant Surgical Oncologist & Robotic Surgeon, Narayana Multispeciality Hospital, Mysuru, said: "The complexity of the surgery starts from the selection of the surgery till the patient gets discharged, as problem can happen at any time. Another critical aspect in this treatment modality is that the chemotherapy is delivered at higher temperature for 90 minutes, maintaining normal body temperatures as well as balancing the third space loss is critical."

While speaking on this occasion, Dr. H.M. Lokesh, Surgical Gastroenterologist, said, similarly, during the recovery there is high chance of fall in WBC (White Blood Cells) count, which can be catastrophic. "A major surgery like this can have pulmonary/ cardiac complications in the immediate post op period as well. As at Narayana Multispeciality Hospital, such complex cases are handled using a comprehensive multi-disciplinary approach, we were able to do the surgery and cure the patient from the condition successfully," he added.

The patient was discharged on the 8 days of the surgery and is now leading a near normal life.

K.V. Kamath, Marketing Head, was present at the press meet.

WORD OF THE DAY

Bukateria

Pronunciation: ˌbuːkəˈtɛrɪə.
Meaning: An inexpensive and casual restaurant, typically selling food that is prepared in advance; a buka.
Origin: The word buka, borrowed from Hausa and Yoruba and first attested in 1972, refers to a roadside restaurant or street stall that sells local fare at low prices. Another term for such eating places first evidenced in 1980 is bukateria, which adds to buka the –teria ending from the word cafeteria.

THE ODD WORD

Balistarius

Crossbowman.

PHRASE OF THE DAY

Back to the wall

Meaning: To be in a difficult situation; to have the odds against one's self; to have no space to escape; to be trapped in a situation.
Origin: The phrase originates from the American military heritage. Since the 1500s having organised military units is a common phenomenon. To have the "back against the walls" meant that the unit was stranded or caught in a difficult situation where coming back alive was only a dim possibility. They would, in summary, be making their last stand with a choice of fight or flight. But the latter would mean a life of desolation from the society and loved ones so the soldiers chose to fight instead. This also reflected honour and the legacy of the phrase still continues which gives honour to the ones choosing to fight back.
Example: I had my back against the wall when I was forced to take such a difficult decision.

QUOTE BOX

The big lesson in life, baby, is never be scared of anyone or anything.
— Frank Sinatra

AGRO-INNOVATION

Low-cost paper pot transplanter

*Final year students from the Department of Mechanical Engineering, Vidyavardhaka College of Engineering (from left) **V. Akhil, B.V. Ashish, S. Anush Gowda and K.S. Hemanth with their guide Dr. G.B. Krishnappa and their innovation.***

Mysuru, Aug. 12 (BCT)- Agriculture is the backbone of Indian economy as it supplies raw materials for many of the industries and is the source of livelihood for the majority of rural populace in India.

There have been innumerable transformations in cultivation practices of crops and also simultaneously many innovations too were successful in changing the face of Indian agriculture from mere 'sip to mouth' position to the position of self-sufficiency.

With innovations in farming technology, smallholder farmers have seen a rise in productivity over the last decade. Use of innovative technology is necessary to propel Indian agriculture along the growth path. One such innovation is this low-cost paper pot transplanter.

Four final year students from the Department of Mechanical Engineering, Vidyavardhaka College of Engineering (VVCE) in the city, have designed and developed this at a price of just Rs.11,000.

Dr. N. Vasudevan, Associate Director of Research, Agriculture University, VC Farm, Mandya, who suggested students to take up this project said that this transplanter would be useful for small and medium farmers. With this innovation, a single person can transplant 150 vegetable saplings/seedlings per minute. A similar transplanter with half the capacity costs from Rs.50,000 to Rs. 1 lakh in Japan.

Dr. N. Vasudevan

This project was carried out by B.V. Ashish, V. Akhil, S. Anush Gowda and K.S. Hemanth under the guidance of Dr. G.B. Krishnappa, Dean R&D and Professor of VVCE.

How does it work

The paper pot transplanter works similar to a direct seeder. There is a furrower in the front that makes a trough and the plants are fed through a channel to drop into the trough. There are two wings that push the soil back around the plants and two wheels at the tail end which lightly compacts the soil around the plants.

Gundappa Gowda, Hon. President, P. Vishwanath, Hon. Secretary, Srishaila Ramannavar Hon. Treasurer of Vidyavardhaka Sangha, Dr. B. Sadashive Gowda, Principal and Dr. G.V. Naveen Prakash, HoD of Mechanical Engineering, have appreciated the work of students.
